

HIGHLAND RECORDER.

Terms, \$1.00 a Year in Advance.

Issued every Friday evening by
W. H. MATHENY,
EDITOR AND PUBLISHER.

Entered at the Monterey postoffice as
second class matter.

Monterey, Va., Friday, March 2, 1900.

Kentucky ought to commence
her spring cleaning early.

Col. Wm. C. Eham, editor of the
Norfolk Virginia—Pilot is dead.

The Virginia Senate passed a bill
looking to a settlement, with West
Virginia, of her portion of the
public debt of the original state of
Virginia.

Is Gen. Buller crossing the
Tugela river for the same reason
that the cow, she crossed the road,
"sir"?

Kansas City, Mo. the 4th of July,
is the time and place decided upon
for the democratic national con-
vention. Bryan's name was cheer-
ed whenever mentioned, and im-
perialism and trusts were shown to
be factors in the coming campaign.
The national committee meeting
was united and harmonious.

"Wise" states in his letter in this
issue that Col. Hubbard proposes to
give half the places of census
enumerators in his district to the
democrats. We agree with "Wise"
that this is very kind of the Col-
onel, and we have no doubt but
that he will be remembered for it.
Whether this arrangement will
make any change in Highland's
state we have not been informed.

Wholesale Land Grabbing.

A scrap of paper, a mere state-
ment of a conveyance of about \$0-
000 acres of Big Survey land in
Bath and Highland counties, to
foreign land grabbers, has, by a
recent act of the Virginia Legisla-
ture, been made an out and out
deed thereby making a more per-
fect title for the foreign land grab-
ber as against our citizens, the
junior grantees, who occupy the
property and have made it valuable
by years of labor expended on it.
In regard to the act the Staunton
Spectator says, editorially: "If re-
ports are true it is a piece of as
vicious legislation as has been log-
rolled through the Legislature of
this state within the memory of
man."

In the case of our representative,
Hon. Wm. McAllister who has
taken a decided stand against his
constituents in this matter of such
vital importance to them, to favor
the foreign land grabber, is cer-
tainly a case without parallel and
not heretofore known to Virginia
politics.

As the matter stood before this
act, the junior grantees possessed a
title that stood the test in the cir-
cuit court of Bath county and in
the Supreme court, as the case of
Barley vs. Byrd will show. This
case which was an effort to dispo-
sess John T. Byrd, who has two
grants in this survey, was decided
in Mr. Byrd's favor in both courts,
the successful fight being made by
Hon. Charles P. Jones who, by the
way, had as his associate counsel
Hon. Wm. McAllister. But the
Legislature has now given the
foreign land grabber a new hold,
and the litigation that will surely
come of it will not end in years.
We can not see at all how it was
possible for our representative to
have been found in this question
only on the side of his constituents.

"After doctors failed to cure me
of pneumonia I used One Minute
and three bottles of it cured me.
It is also the best remedy on earth
for whooping cough. It cured my
grandchildren of the worst cases,"
writes Jno. Berry, Loganton, Pa.
It is the only harmless remedy that
gives immediate results. Cures
coughs, colds, croup and throat
and lung troubles. It prevents
consumption. Children always like
it. Mothers endorse it. Trimble
and Lunsford.

"My mother suffered with chronic
diarrhoea for several months. She
was attended by two physicians
who at last pronounced her case
hopeless. She procured one 25-
cent bottle of Chamberlain's Colic,
Cholera and Diarrhoea Remedy,
and five doses gave her permanent
relief. I take pleasure in recom-
mending it as the best on the
market." Mrs. F. E. Watson,
Aiken, Ala. Sold by J. A. White-
law, Monterey. H. E. Colaw Crab-
bottom. J. M. Jones, Doe Hill.
S. C. Slaven Meadow Dale.

Geo. Barbe, Mendota, Va., says,
"Nothing did me so much good as
Kodol Dyspepsia Cure. One dose
relieved me, a few bottles cured
me." It digests what you eat and
always cures dyspepsia.

The Small-Pox.

Being requested by Mr. A. R.
Lockridge, we publish the follow-
ing article, which appeared in the
press several years ago, and the
circumstances then existing will
be remembered by many of our
readers. In reproducing the article
Mr. Lockridge wishes to get before
the people the remedy then used so
successfully in the case referred to.
The article is as follows:

"The editor of the Bristol 'News'
and a member of the Virginia leg-
islature, in writing to his paper
from Richmond has the following
to say of small-pox and one of its
recent subjects, Col. Carpenter.
Nature has unquestionably furnish-
ed a cure for every disease that can
afflict mankind. It is only our
failure sometimes to know what it
is and how to apply it properly. In
the worst cases the remedy is gen-
erally the simplest one. But Mr.
Fowler says:

"As small pox seems to be spread-
ing in the southwest, I wish to
give the readers of the 'News' a
short history of the case of Col.
Samuel Carpenter, the delegate
from Allegheny. He was one of
the room-mates of Judge Seig, and
fearing small-pox he went to his
home to await developments. It
was on Thursday night he was in
a little house some twenty feet
from his family room, that he just
began to suffer greatly. On Fri-
day morning he had broken out
with small-pox. His daughter had
seen and preserved a copy of the
'Sunning South,' in which was pub-
lished a remedy which had gone
the rounds of the press repeatedly,
for small pox and scarlet fever,
and which is as follows:

Digitalis, one grain; Sulphate of
Zinc, one grain. Dissolve in two
tablespoonsful of water, afterward
add ten tablespoonsful water. A
tablespoonful of the mixture to be
taken every hour for 12 hours.

His daughter brought this paper
and handed it to him in person
after he had broken out. Further
brave young lady she was. Colo-
nel Carpenter at once resolved to
try the remedy, though he had to
send to Staunton for it. This re-
quired several days and when he
did arrive on Sunday evening his
physician opposed the use of it un-
til Tuesday morning, when Col.
Carpenter determined to override
all objections and resort to it. He
was then terribly swollen and nearly
blind. He was literally covered
with the eruption, though very
few of the pustules had suppurated.
He was suffering greatly, but
after six hours use of the remedy
he felt sensibly better, and in
twelve hours he was almost entire-
ly relieved. The eruption never
ripened at all, and in three or four
days the scales had fallen from
him and he was a new man and a
well one. He believes it will cure
any one. His son, aged 23, stayed
in his room all the time and slept
beside him without contracting the
disease. There is another hero for
you. But mark you this; when
Col. C. first went home he vac-
cinated his whole family, and the
vaccination had taken finely in the
case of the young man."

Hacking COUGH

A hacking cough is a grave-yard
cough; the sooner you get rid of it the
better. Don't wait until it develops
into consumption, but use the cele-
brated Dr. John W. Bull's Cough
Syrup at once. It is a wonderful
remedy for all throat and lung affec-
tions, and will cure a deep-seated
cough or cold in a few days.

Dr. Bull's Cough Syrup

Will cure a Hacking Cough.
Does not irritate and is pleasant to take. Doctors
recommend it. Price 25 cts. At all druggists.

That Cough Hangs On

You have used all
sorts of cough reme-
dies but it does not
yield; it is too deep
seated. It may wear
itself out in time, but
it is more liable to
produce la grippe,
pneumonia or a seri-
ous throat affection.
You need something
that will give you
strength and build
up the body.

SCOTT'S EMULSION

will do this when everything
else fails. There is no doubt
about it. It nourishes,
strengthens, builds up and
makes the body strong and
healthy, not only to throw
off this hard cough, but to
fortify the system against
further attacks. If you are
run down or emaciated you
should certainly take this
nourishing food medicine.

SCOTT & BOWNE, Chemists, New York.

Does your House need Painting?

If so, have it done before the
weather destroys the surface.

Use the best materials, they are
cheapest in the end.

Employ honest, competent, work-
men—otherwise you lose, in both
labor and material.

No man can do good work cheap-
er than the one who knows his
business.

If you want nice work, get a
good smooth surface to work on.

You never get more than you
pay for.

When you pay out your money,
why not have good work done?

Very Respectfully,
R. F. GILLET,
Practical Painter,

FOR THE PEOPLE AND

WITH THE PEOPLE

HONEST IN MOTIVE

FEARLESS IN EXPRESSION

SOUND IN PRINCIPLE

A newspaper is an educator; there are
all kinds of educators, but the man who
spends money judiciously and liberally
is better able to impart his knowledge
than the man who has little or nothing
to spend.

The Sun's reports from all parts of the
United States are unsurpassed.
The Sun's Cable Service is the finest
known; the troubles in the Philippines
and in South Africa demand competent
correspondents and vast expenditures of
money and labor in getting the news.
When you get The Sun you get the news
and intelligent presentation of facts with
it, as well as carefully prepared articles
of editorial writers of highest standing.
When you read a daily paper, whose
principal recommendation is its cheap-
ness, you get the dregs—generally very
poor dregs at that.

months, \$2.50; one year, \$5.
